Job Description

Job title: **HTML5 Games Developer**
Location: **Sofia, Bulgaria**
Type: **Full Time**

Company Background

GAN is an award winning global supplier of industry leading casino content, fast flexible gaming systems and turnkey social gaming. The company was founded in 2002 with the aim of capturing the emerging online skill-games market. Having led the market in backgammon and regional skill games in Italy and Spain, we broadened our product portfolio to offer a full gaming software system as well as becoming a leading developer of online casino games.

GAN's flagship clients are market leading casino operations and best-in-class content development houses. GAN's Simulated Gaming social casino partners include WinStar World Casino, Turning Stone Online Casino, Twin River, Maryland Live! Station Casinos, JACK Entertainment Social Gaming, The Lady Luck Interactive, The Borgata Hotel Casino & Spa, San Manuel Indian Bingo and Casino, Empire City Casino, and Parx Casino.

The company has strategically positioned itself in the US as a pioneer in this emerging regulated market. In New Jersey, we have partnered with Betfair to provide a real-money online gaming site since November 2013. We've also launched an Ocean Resort Casino in July 2018.

Overview of the Role – HTML5 Games Developer

The candidate should be self-motivated, creative and proactive, to work successfully in a fast-paced environment including multiple platforms and diverse technologies. The individual will work closely with developers, project managers, and other stakeholders throughout the Software Development Life Cycle. The ideal candidate will have several years of experience and knowledge acquired in an online games company, preferably within the gambling/gaming industry, with as much experience as possible in development for mobile devices. Being able to provide links to live HTML5 games would be a significant advantage.

Excellent written and spoken English is critical as you will be required to communicate with colleagues, line managers and occasionally large multinational clients.

Experience in **development for mobile** is essential for this role, and also a minimum 3 years' experience of the following:

- Passion and enthusiasm for games development
- PixiJS, PhaserJS, ImpactJS
- Object Orientated approach to programming

Key Qualifications, Experience and Attributes

The ideal candidate must be enthusiastic about their job. They must also have the following qualities:

- Passion and enthusiasm for games development
- Awareness of what makes a game fun and easy to play
- Ability to work under pressure
- Creativity and open-mindedness
- Desire to learn new skills
- Team player

The following skills would also be highly beneficial:

- JavaScript, HTML5, CSS, ThreeJS, PlayCanvas, NodeJS, ES6
- Webpack/Babel
- Experience with Photoshop
- Knowledge of good client interface design

- Personal interest in gaming, and the gambling/gaming industry in general

What we offer in exchange

- An opportunity to work in a multinational established company
- Competitive salary
- 25 Days Annual Leave
- Private Healthcare Package
- Sports Card (access to more than 120 sports centres in Sofia)
- Food vouchers
- Agile driven development and separation of duties.
